

## INDEX TO VOLUME LXV

- ACTION** current of skeletal muscle, effect of tension on, 300.  
 — currents, functional, in cervical sympathetic, 350.
- ADDIS, T.** See **TAYLOR, DRURY** and **ADDIS**, 55.
- ADOLPH, E. F.** The excretion of water by the kidneys, 419.
- Adrenal cortex**, production of epinephrin by, 623.
- Adrenalectomized rabbits**, action of insulin on, 342.
- Adrenalin**, metabolic effect of, on frog muscle, 15.
- Adrenals and pancreatic diabetes**, 319.
- Afferent impulses**, relation of, to cardio-vascular centers, 174.
- Anoxemia**, circulatory responses to, 379.
- Arenicola larvae**, effect of chemical factors on heliotropic response of, 450.
- Asterias eggs**, conditions favoring maturation of, 45.
- Autonomic drugs**, reversal effects of sodium citrate and, 62.
- BAGG, H. J.** See **EDWARDS** and **BAGG**, 162.
- BLAIR, E.** The contraction rate of the excised rat uterus with reference to the oestrous cycle, 223.
- Blindness**, artificial color, and hue perception, 569.
- Blood elements in complement deficient guinea pigs**, 101.
- pressure in anaphylactic and peptone shock, 512.
- Body and gonad growth in rats fed pituitary gland**, 277.
- BRAILEY, M. E.** Conditions favoring maturation of eggs of *Asterias forbesii*, 45.
- BRIGHT, E. M.** See **REDFIELD** and **BRIGHT**, 312.
- BURGE, W. E.** The effect of high and low temperatures on the catalase content of *paramecium caudatum*, 527.
- BURSTEIN, J.** The diastolic phases of the cardiac cycle in man, 158.
- BYRNE, J.** Afferent relations of the skin and viscera to the pupil dilator mechanism, 482.
- and **W. EINTHOVEN**. Functions of the cervical sympathetic as manifested by its action currents, 350.
- CARDIAC** cycle, diastolic phases of, 158.
- Cardio-vascular centers**, relation of afferent impulses to, 174.
- CARLETON, R.** See **JACKSON** and **CARLETON**, 1.
- CARLSON, A. J. and S. LITT.** Studies on the visceral sensory nervous system. XV. Note on the innervation of the cardia in the *Macacus* monkey, 534.
- Catalase content**, temperature and, of *Paramecia* and *Spirogyra*, 527.
- CATTELL, H.** See **FORBES, COBB** and **CATTELL**, 30.
- Circulatory responses to anoxemia**, 379.
- COBB, S. and A. FORBES.** Electromyographic studies of muscular fatigue in man, 234.
- See **FORBES, COBB** and **CATTELL**, 30.

- COOPER, E. F. The toxicity of the alcoholic extract of ox bile when fed to white rats, 363.
- CORI, G. T. The influence of thyroid extracts and thyroxin on the rate of multiplication of paramecia, 295.
- Corpus striatum, effect of radium emanations on, 162.
- DECEREBRATION**, inhibition of erection by, 139.
- Diabetes, influence of pancreatic perfusate on, 252.
- , pancreatic, adrenals and, 319.
- DRAGSTEDT, L. R., K. PHILLIPS and A. C. SUDAN. Studies on the pathogenesis of tetany:
- II. The mechanism involved in recovery from parathyroid tetany, 368.
- III. Exciting factors in experimental tetany in dogs, 503.
- DRURY, D. R. See TAYLOR, DRURY and ADDIS, 55.
- EADIE**, G. S., J. J. R. MACLEOD and E. C. NOBLE. Insulin and glycolysis, 462.
- EDWARDS, D. J. and H. J. BAGG. Lesions of the corpus striatum by radium emanation and the accompanying structural and functional changes, 162.
- EINTHOVEN, W. See BYRNE and EINTHOVEN, 350.
- Enzymes, digestive, effect of, on pituitary extract, 90.
- Epinephrin, effects of temperature on secretion of, 612.
- , production of, by adrenal cortex, 623.
- Erection, inhibition of, by decerebration, 139.
- Exercise, effect of, on vitamin requirements, 128.
- Eye, fatigued, sensibility of, to differences in wave-length in relation to color blindness, 569.
- Eye, non-visual afferent mechanism in, 477.
- , sensibility of, to wave-length differences, 547.
- FATIGUE**, muscular, electromyographic studies of, 234.
- Flexion reflex after spinal transection, 30.
- Food tests, biological, 491.
- FORBES, A., L. H. RAY and A. MCH. HOPKINS. The effect of tension on the action current of skeletal muscle, 300.
- , S. COBB and H. CATTELL. Electrical studies in mammalian reflexes. III. Immediate changes in the flexion reflex after spinal transection, 30.
- , See COBB and FORBES, 234.
- GESTATION** and lactation, weight of ovaries of albino rats, in, 77.
- Glycolysis, insulin and, 462.
- Gonad growth, body and, in rats fed pituitary gland, 277.
- GRIFFITH, F. R., JR. Does adrenalin affect the metabolism of the surviving skeletal muscles of the frog?, 15.
- Gyrus precentralis, temporal variation in function of, 585.
- HACHEN**, D. S. and C. A. MILLS. Effects following the intestinal administration of (iletin) insulin, 395.
- HALL, F. G. See LEAKE, HALL and KOEHLER, 386.
- HAMILTON, W. F. and H. LAURENS. The sensibility of the fatigued eye to differences in wave-length in relation to color blindness, 569.
- , See LAURENS and HAMILTON, 547.
- HARTMAN, F. A. and W. B. HARTMAN. Influence of temperature changes on the secretion of epinephrin, 612.
- and W. E. HARTMAN. The production of epinephrin by the adrenal cortex, 623.

- HARTMAN, W. B. See HARTMAN and HARTMAN, 612.
- HARTMAN, W. E. See HARTMAN and HARTMAN, 623.
- Heliotropic response of *Arenicola* larvae, effect of chemical factors on, 450.
- Hemolytic action of radium emanation, 312.
- Hepatectomy, effect of insulin before and after, 403.
- Hepatic factor in chloroform and phosphorus poisoning, 267.
- HOPKINS, A. MCH. See FORBES, RAY and HOPKINS, 300.
- Hydron concentration, effect of, on vascular tone, 386.
- Hyperglycemia, morphine, effect of insulin on, 331.
- INNERVATION** of cardia of *Macacus* monkey, 534.
- Insulin, action of, on adrenalectomized rabbits, 342.
- and glycolysis, 462.
- , effect of, before and after hepatectomy, 403.
- , —, on morphine hyperglycemia, 331.
- , intestinal administration of, 395.
- Intestinal administration of insulin, 395.
- Iodine content of thyroid, effect of quinine on, 282.
- JACKSON, C. M. and R. CARLETON.**  
The effect of experimental rickets upon the weights of the various organs in albino rats, 1.
- KEITH, M. H. and H. H. MITCHELL.**  
The effect of exercise on vitamin requirements, 128.
- Kidneys, excretion of water by, 419.
- , size of, and urea excretion, relation between, 55.
- KLEITMAN, N. See SALANT and KLEITMAN, 62.
- KOEHLER, A. E. See LEAKE, HALL and KOEHLER, 386.
- LANG, J. M. and J. M. D. OLMSTED.**  
Conditioned reflexes and pathways in the spinal cord, 603.
- LASHLEY, K. S. Temporal variation in the function of the gyrus precentralis in primates, 585.
- LAURENS, H. and W. F. HAMILTON.  
The sensibility of the eye to differences in wave-length, 547.
- , See HAMILTON and LAURENS, 569.
- LEAKE, C. D., F. G. HALL and A. E. KOEHLER. The influence of the hydron concentration on vascular tonicity. I. With special reference to buffered phosphate perfusing solutions, and the specific action of the lactate ion, in the frog, 386.
- Light, intense, vasomotor responses to, 477.
- LILLIE, R. S. and C. E. SHEPARD. The influence of combinations of inorganic salts and of variations in hydrogen ion concentration on the heliotropic response of *Arenicola* larvae, 450.
- Lipase production by liver, 287.
- LITT, S. See CARLSON and LITT, 534.
- Liver, lipase production by, 287.
- , physiology of, 267, 403.
- MCCARTHY, E. R. and H. C. OLMSTEAD.** Influence of pancreas perfusate on pancreatic diabetes (dogs), 252.
- MACLEOD, J. J. R. See EADIE, MACLEOD and NOBLE, 462.
- MAGATH, T. B. See MANN and MAGATH, 403.
- MANN, F. C. and T. B. MAGATH. Studies on the physiology of the liver. VII. The effect of insulin on the blood sugar following total and partial removal of the liver, 403.
- , See WILLIAMSON and MANN, 267.
- MARTIN, E. G. and M. L. TAINTER. The inhibition of erection by decerebration, 139.
- Maturation of *Asterias* eggs, conditions favoring, 45.

- Metabolism, effect on, of breathing pure oxygen, 148.
- MEYER, A. L. The effect on the metabolism of breathing pure oxygen at a pressure of one atmosphere, 148.
- MILLS, C. A. See HACHEN and MILLS, 395.
- MITCHELL, H. H. See KEITH and MITCHELL, 128.
- MOORE, H. D. See NICE, NEILL and MOORE, 101.
- MORGAN, A. F. and H. D. STEPHENSON. Biological food tests. III. Changes in vitamins A and B of the globe artichoke due to various canning and drying processes, 491.
- Muscle, effect of tension on action current of, 300.
- , frog, metabolic effect of adrenalin on, 15.
- Muscular fatigue, electromyographic studies of, 234.
- N**ASAL volume, effect of pulmonary ventilation on, 229.
- NEILL, A. J. See NICE, NEILL and MOORE, 101.
- Nerve, cervical sympathetic, functional action currents in, 350.
- Nervous system, visceral sensory, 534.
- NICE, L. B., A. J. NEILL and H. D. MOORE. The blood elements in complement deficient guinea pigs, 101.
- NOBLE, E. C. See EADIE, MACLEOD and NOBLE, 462.
- O**ESTROUS cycle, relation of uterine contractions to, 223.
- OLMSTEAD, H. C. See MCCARTHY and OLMSTEAD, 252.
- OLMSTED, J. M. D. See LANG and OLMSTED, 603.
- Ovaries, weight of, in albino rats, 77.
- Oxygen, pure, effect on metabolism of breathing, 148.
- PACK, G. T. New experiments on the nature of the sensation of thirst, 346.
- Pancreatic perfusate, influence of, on diabetes, 252.
- Paramecia, effect of thyroid on reproduction of, 295.
- Parathyroid tetany, mechanism of recovery from, 368.
- PHILLIPS, K. See DRAGSTEDT, PHILLIPS and SUDAN, 368, 503.
- Pituitary extract, effect of digestive enzymes on, 90.
- gland, body and gonad growth in rats fed, 277.
- Plasma concentrations and excretion of various urinary constituents, 212.
- PREWITT, P. V. Lipase production by the liver, 287.
- Pulmonary ventilation, effect of, on nasal volume, 229.
- Pupil dilator mechanism, afferent relations of skin and viscera to, 482.
- Q**UININE, effect of, on iodine content of thyroid, 282.
- R**ADIUM emanation, hemolytic action of, 312.
- emanations, effect of, on corpus striatum, 162.
- RAY, L. H. See FORBES, RAY and HOPKINS, 300.
- REDFIELD, A. C. and E. M. BRIGHT. Hemolytic action of radium emanation, 312.
- REED, C. I. Physiological evidence of the existence of a non-visual afferent mechanism in the eye. I. Vasomotor responses to intense light, 477.
- REES, M. H. and R. W. WHITEHEAD. Effect of digestive enzymes on pituitary extract action, 90.
- Renal activity, regulation of, 55.
- tubule function, 200, 212, 537.
- Respiratory changes in man at high altitudes, 107.
- Rickets, experimental, organ weights in, 1.
- ROGOFF, J. M. See STEWART and ROGOFF, 319, 331, 342.

- SALANT, W. and N. KLEITMAN.** A study of reversal effects observed in experiments with sodium citrate or allied salts and autonomic drugs, 62.
- SCHNEIDER, E. C.** The respiratory exchange and alveolar air changes in man at high altitudes, 107.
- and **D. TRUESDELL.** The circulatory responses of man to a sudden and extreme anoxemia, 379.
- SHEPARD, C. E.** See **LILLIE** and **SHEPARD**, 450.
- Shock, anaphylactic and peptone,** blood pressure in, 512.
- SIMONDS, J. P.** A study of the simultaneous changes in blood pressure in the carotid artery and jugular and portal veins in anaphylactic and peptone shock in the dog, 512.
- Skin, afferent relations of,** to pupil dilator mechanism, 482.
- SMITH, C. S.** The alleged effects on body growth and gonad development of feeding pituitary gland substance to normal white rats, 277.
- Sodium citrate** reverses effects of autonomic drugs, 62.
- Spinal cord, conditioned reflexes and pathways in,** 603.
- transection, flexion reflex after, 30.
- STEPHENSON, H. D.** See **MORGAN** and **STEPHENSON**, 491.
- STEWART, G. N. and J. M. ROGOFF.** The action of insulin on adrenalectomized rabbits, 342.
- — — — — The adrenals and pancreatic diabetes, 319.
- — — — — The effect of insulin upon morphine hyperglycemia, 331.
- STOTSENBERG, J. M.** On the weight of the ovaries in the albino rat during gestation and normal lactation: also in females deprived of their new-born litters, 77.
- SUDAN, A. C.** See **DRAGSTEDT, PHILLIPS** and **SUDAN**, 368, 503.
- SUGATA, H.** The effect of quinine on the iodine content of the thyroid gland, 282.
- Sulphate, excretion of,** 537.
- , inorganic, in blood or plasma, technique for determination of, 537.
- TAINTER, M. L.** See **MARTIN** and **TAINTER**, 139.
- TATUM, A. L.** The effect of deficient and excessive pulmonary ventilation on nasal volume, 229.
- TAYLOR, F. B., D. R. DRURY and T. ADDIS.** The regulation of renal activity. VIII. The relation between the rate of urea excretion and the size of the kidneys, 55.
- Temperature and catalase content of** *Paramecia* and *Spirogyra*, 527.
- , effects of, on secretion of epinephrin, 612.
- Tetany, experimental, exciting factors in,** 503.
- , pathogenesis of, 368, 503.
- Thirst, nature of the sensation of,** 346.
- Thyroid, effect of, on reproduction of** *paramecia*, 295.
- , — — — quinine on iodine content of, 282.
- Toxicity of alcoholic extract of ox bile for rats,** 363.
- TRUESDELL, D.** See **SCHNEIDER** and **TRUESDELL**, 379.
- TULGAN, J.** A study of the relation of afferent impulses to the activity of the central cardio-vascular nervous mechanism, 174.
- UREA** excretion and size of kidneys, relation between, 55.
- Urinary constituents, concentration ratios of,** 200.
- Uterine contractions, relation of, to** oestrous cycle, 223.
- VASCULAR** tone, effect of hydron concentration on, 386.
- Vasomotor responses to intense light,** 477.
- Ventilation, pulmonary, effect of, on** nasal volume, 229.

Viscera, afferent relations of, to pupil dilator mechanism, 482.

Visceral sensory nervous system, 534.

Vitamin requirements, effect of exercise on, 128.

Vitamins A and B in globe artichoke, 491.

**W**ATER, excretion of, by kidneys, 419.

Weights of organs in experimental rickets, I.

WHITE, H. L. Studies on renal tubule function:

I. A comparison of the concentration ratios of various urinary constituents, 200.

II. A comparison of the plasma concentrations and rates of excretion of various urinary constituents, 212.

III. Observations on the excretion of sulphate, with a modified technique for the determination of inorganic sulphate in blood or plasma, 537.

WHITEHEAD, R. W. See REES and WHITEHEAD, 90.

WILLIAMSON, C. S. and F. C. MANN. Studies on the physiology of the liver. V. The hepatic factor in chloroform and phosphorus poisoning, 267.
